EMPLOYMENT HISTORY

Junior Data Scientist, Q-Park, Maastricht, the Netherlands

SEPTEMBER 2019 – PRESENT

My tasks as the intern data scientist at the Business Intelligence department include creating a car park benchmark for acquisition purposes, implementing solutions using data fusion and machine learning techniques for clustering, classification and prediction tasks, providing an in-depth understanding of the performance of car parks and developing dashboards and visualizations for the management of the company.

Board Member: Project Manager, European Youth Parliament Belgium

MAY 2020 – MAY 2021

As the Board Member of the NGO of European Youth Parliament Belgium, I was responsible for coordinating the following projects:

- Understanding Europe - a series of European civic education seminars, delivered by international volunteers to high school students in Belgium;
- Regional Selection Conference of the EYP Belgium in Kortrijk.

Vice President, MSV Incognito, Maastricht

JUNE 2020 – JUNE 2021

As a Vice President of a study association of my faculty, with the portfolio of external relations and head of activities, I worked for the benefit of fellow students by managing various events and leading a group of passionate organizers. I organized a digital Career Day during which almost 200 students connected with multiple businesses such as Accenture or Uber.

Projects Coordinator, Voiped Telecom

JUNE 2018 – JUNE 2019

As a country coordinator of Voiped Telecom for both Poland and Slovenia, I'm responsible for managing new projects of the company in the aforementioned countries and support the company in the communication with stakeholders from Poland and Slovenia, including international corporations such as Primark.
